I am writing to object to SNWA applications for water in Spring, Dry Lake, Cave and Delamar Valleys. I am a citizen of Orem, Utah, a community along the Wasatch Front in Utah. Pumping water from these valleys will have deleterious impacts upon the already degraded air quality along the Wasatch Front by creating drier conditions and allowing more dust to contribute to particulate pollution.

Such degradation will, in turn, harm property values in our area.

Please deny these SNWA applications.
