Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

I appreciate the reopening of the legal challenge to SNWA's proposal and the careful work you and your agency has done to investigate the legality of claims and the potential impacts of the proposal.

Nevada needs to grow its way into a more diversified and balanced economy, drawing upon the natural resources of our state WHERE THEY EXIST throughout our state. Rural Nevada has great beauty, and great opportunity to provide jobs and a haven for Nevadans and visitors from throughout the world. Tip the balance in favor of a balanced environment, and leave the water in its basins.

Again, thank you very much for your hard work and that of your agency.

Sarah Mersereau-Adler

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mrs. Sarah Mersereau-Adler
