Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

As a native Nevadan, I have worked on many environmental restoration campaigns. I do not want to have to repeat the process to restore the eastern Nevadan ecosystem due to water theft.

Thank you for your consideration in protecting the Nevada landscape.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Scott Hall
