Mr. King

This past summer, I spent an entire week exploring the north eastern areas of Nevada, including the Great Basin, and was astounded at the beauty of the environment and impressed by the resources that I didn't realize existed in our state. I'm writing to oppose the pipeline to Clark County.

Southern Nevada Water Authority's proposal will risk the livelihood of both those in Eastern Nevada by draining their resources and those in Southern Nevada who will be forced to pay for expensive project. The current tough economic climate has stalled Southern Nevada's growth rate, and any future growth MUST take into account our current water resources -- not risk other areas.

Please deny SNWA's request for water rights in the Great Basin.

Nevadans cannot afford this project.
