State Engineer Jason King, State Engineer  
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

We should focus on retrieving water locally through Hoover Dam negotiations or wells in our area not retrieving water from farmers in Norther Nevada who need that water for crops and stock.

Sincerely,

Stephanie Gort  
4900 Metpark Dr  
Las Vegas, NV 89110-3522
