Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin because the substantial hiking experience I have had there. I enjoy the beauty of the area and it would be a disgrace to sacrifice it.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Susan Malcher
