Subject: A 300-Mile Pipeline is Not the Answer.

Dear Jason King,

Great Basin National Park is an extraordinary place--remote, scenic, and treasured by millions of Americans who value our national park system. Plans to pump millions and millions of gallons from the park's vast ecosystem greatly threaten what is special about this place.

Have you ever climbed to the top of Mt Wheeler? Camped there for a few days??? Then you could see the beauty.....Please dont pump water out of there for Las Vegas, instead send the California's back to where they came from & the illegal's right behind them.....

Sincerely,
Ms. Terry Graham
