Jason King  
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

I am a native Las Vegan and have seen the growth in this valley go unchecked. We need to slow down. Las Vegas doesn't need this water, certainly not at the expense of the Great Basin. Forget the water, let's get back to some better urban planning.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Ms. Theresa Holmes
