State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

We cannot risk devastation of the rural economies, wildlife habitats and Native American communities. I'm not sure what the answer is, but it cannot be this.

Thank you for your consideration.

Victoria Mar

Sincerely,

Victoria Mar
