Subject: A 300-Mile Pipeline is Not the Answer.

Dear Jason King,

Thank you for listening to my concerns.

Our family is an avid Nature explorer and we have done many trips up to the Great Basin Park, Wheeler Peak and the Lehman Caves. There is no other place like that on this earth. Great Basin National Park is an extraordinary place--remote, scenic, and treasured by millions of other Americans who value our national park system like we do. Plans to pump millions and millions of gallons from the park's vast ecosystem greatly threaten what is special about this place.

I beg you, Mr. King, to dismiss questionable, ecologically-unsound plans to pump and move water from one location in Nevada more than 300 miles to Las Vegas. I appeal to you to respect Nevada's sole national park and make certain the park's resources are sustained for generations to come.

Thank you for your thoughtful consideration.

Sincerely,
Mrs. Virva Porcelli
