Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Dear Nevada State Engineer,

Please deny the demand from the Southern Nevada Water Authority for groundwater rights in White Pine and Lincoln Counties.

I believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

It's important for me that the Great Basin water stays in the Great Basin because of the personal experience that I have of the area as I've been living and visiting in all areas of the Great Basin over the last 41 years. Water is a scarce resource and needs to be protected where it is.

There are much better answers to the water issues in Las Vegas.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.
