State Engineer Jason King
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Yes, we need to have the pipeline and the tap for water so we here in southern Nevada can survive..I also want to add, do it with respect to the land, the people, the farmers etc..but DO IT..now, we need water now...

Sincerely,

Walter Jurva
