Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin.

Please be a visionary and save the Great Basin. Please don't bend to the powerful pulls from the Southern Nevada Water Authority. We realize there is plenty of money and powerful political forces in Las Vegas and southern Nevada. But money and greed should not be able to influence people like you who have the power to say no and make a greater difference.

Thank you.

I urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mrs. William Donovan
