Mr. King

Southern Nevada Water Authority's proposal will risk the livelihood of both those in Eastern Nevada by draining their resources and those in Southern Nevada who will be forced to pay for expensive project.

Please deny SNWA's request for water rights in the Great Basin.

Nevadans cannot afford this project.

As someone who lives in southern Nevada, I believe I am very aware of the impact this project will have. I travel widely, spending a lot of time in our state's amazing backcountry, and I love going up to White Pine County. If this pipeline becomes a reality, I worry about what will happen to the areas up there. They should be left alone.

Again, as a southern Nevadan, I urge you: let Clark County live within its means. We have plenty of water right now if we would only use it correctly. Do not destroy central Nevada's ecosystems just because of southern Nevada's greed.
