APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other groundwater development in the area.

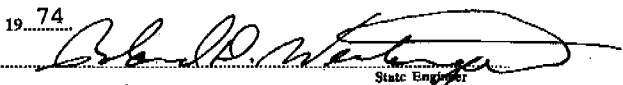

A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.2 cubic feet per second, but not to exceed 32.6 million gallons annually.

- Actual construction work shall begin on or before August 28, 1974
- Proof of commencement of work shall be filed before September 28, 1974
- Work must be prosecuted with reasonable diligence and be completed on or before August 28, 1975
- Proof of completion of work shall be filed before September 28, 1975
- Application of water to beneficial use shall be made on or before August 28, 1978
- Proof of the application of water to beneficial use shall be filed on or before September 28, 1978
- Map in support of proof of beneficial use shall be filed on or before

 my office, this 28th day of February

A.D. 1974

 State Engineer

THE STATE OF NEVADA
CERTIFICATE OF APPROPRIATION OF WATER

WHEREAS, Glen K. Griffith, Director has presented to the State Engineer of the State of Nevada Proof of Application of Water to Beneficial Use, from an underground source through a well, pipeline and rearing ponds for fish, wildlife and recreation purposes. The point of diversion of water from the source is as follows: SW 1/4 NE 1/4 Sec. 2, T. 12N, R. 67E., MDBSM, or at a point from which the NE corner of the said Sec. 2 bears N. 15° 51' W., a distance of 1,470 ft. situated in White Pine County, State of Nevada.

Now Know Ye, That the State Engineer, under the provisions of NRS 533.425, has determined the date, source, purpose, amount of appropriation, and the place where such water is appurtenant, as follows:

Name of appropriator: Nevada Department of Fish and Game
Post-office address: Reno, Nevada
Amount of appropriation: 0.0278 cfs, but not to exceed 6.52 mgs
Period of use, from: January 1st to December 31st of each year
Date of priority of appropriation: September 19, 1973

Description of works of diversion, place and manner of use:
Water is developed in an 8" diameter by 441 feet deep flowing well. A pipeline and valve system controls the flow to two 40 ft. x 40 ft. and one 25 ft. x 25 ft. ponds located in the same subdivision as the point of diversion, where the water is used to rear rare and endangered species of fish.

This certificate is issued subject to the terms of the permit.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

In TESTIMONY WHEREOF, I, ROLAND D. WESTERGARD, State Engineer
Compared lp/lk/ga of Nevada, have hereunto set my hand and the seal of my office, this
