

The HYDRODYNAMICS Group

studies in mass and energy transport in the earth

1

JOHN D. BREDEHOEFT *PhD, NAE*

*Contaminant Transport
Numerical Models of Groundwater Flow and Transport
Water Resources Development
Contaminant Clean-Up including Nuclear Waste Disposal*

EDUCATION

1955 BSE **GEOLOGICAL ENGINEERING**, Princeton University (Cum Laude)
1957 MS **GEOLOGY**, University of Illinois
1962 Ph.D. **GEOLOGY**, University of Illinois (minor in Civil Engineering—Soil Mechanics);
 Thesis: *The Hydrogeology of the Lower Humboldt River Basin, Nevada.*

EXPERIENCE

In 1995 John Bredehoeft established the consulting firm—The HydroDynamics Group. He devoted the previous 32 years to public service at the U.S. Geological Survey (USGS). His expertise is in water resources, especially groundwater; he has worked on many aspects of water related problems. During his years at the USGS, he held both scientific research and high-level management positions. In 1994, Bredehoeft retired as a senior research geologist from the Water Resources Division of the USGS.

While at the USGS Bredehoeft testified before Congress on such diverse topics as: the USGS study of the Potomac Estuary, National Policy on the geologic disposal of nuclear wastes, water in the western United States, the use of numerical models in management decisions. He was a member of the National Academy of Sciences/National Research Council (NAS/NRC) Committee on the Waste Isolation Pilot Plant (WIPP), and a member of the NAS/NRC Panel that reviewed groundwater concerns for the Yucca Mountain Nuclear Repository.

Bredehoeft was George Pinder's Ph.D. advisor at the University of Illinois in 1967-68. Together they 1) developed and published the first widely utilized numerical groundwater flow model (for which they received the Horton Award of the American Geophysical Union), and 2) the first widely used contaminant transport model (for which they received the Meinzer Award of the Geological Society of America). During his career in research Bredehoeft worked on a variety of other topics: 1) analytical methods for the field determination of aquifer parameters, 2) geophysical experiments for both the prediction and control of earthquakes. He spent two years at Resources for the Future (RFF) where he engaged in analytical studies of the economics of groundwater management. He engaged in experiments utilizing water wells as strain meters at Parkfield, CA, and in studies of the hydrodynamics of deep sedimentary basins. In recent years he has also worked on studies of contaminant movement and nuclear waste disposal.

In the tradition of the USGS, Bredehoeft held positions in both research and high-level management. For five years in the 1970s, he managed the USGS National Water Research Program. In the early 1980s, he was the Regional Hydrologist, Western Region, where he supervised the Survey's water activities in the eight western states—Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon, and Washington.

Bredehoeft taught one year as a visiting professor at the University of Illinois; and was a consulting professor at Stanford for 8 years, and at the University of California—Santa Cruz, and San Francisco State University for several years. He served on numerous national advisory committees for the National Research Council, the National Science Foundation, and the Department of Energy.

He received numerous awards: member of the U.S. National Academy of Engineering; Editor of the scientific journal, *Ground Water* (1991-95); received both the Horton Medal of the American Geophysical Union (the highest award given to a hydrologist), the Penrose Medal of the Geological Society of America (the highest award given to a geologist), and made a life-member of the National Ground Water Association (their highest award).

The HYDRODYNAMICS Group

2

studies in mass and energy transport in the earth

EXPERIENCE

- 1994 **Consultant/Principal**—The HYDRODYNAMICS Group, Sausalito, CA
- 1985-94 **Research Geologist**—U.S. Geological Survey (USGS), Menlo Park, CA (Supergrade)
- 1989-91 **Consulting Professor**—Applied Earth Sciences Department, Stanford University
- 1980-85 **Regional Hydrogeologist**—USGS, Region Manager (8 states west), Menlo Park, CA
- 1974-79 **Deputy Chief Hydrologist for Research**—USGS, Reston, VA
- 1968-70 **Resources for the Future**—USGS (cooperative studies), Washington DC
- 1967-68 **Visiting Associate Professor**—Geology Department, University of Illinois, IL
- 1962-67 **Research Geologist**—USGS, Water Resources Division, Arlington, Virginia
- 1961-62 **Groundwater Hydrologist**—Nevada Department of Conservation and Natural Resources and the Desert Research Institute, University of Nevada, Reno, NV
- 1957-59 **Exploration Geologist**—Humble Oil, Vernal, UT

BIBLIOGRAPHY

Bredehoeft is the author of more than 100 scientific papers in the referred scientific literature.

SCIENTIFIC COMMITTEES

- 1995-98 **Council International Exchange of Scholars (Fulbright Scholars)**—Advisory Board
- 1996-98 **Lawrence Livermore National Laboratory**—Advisory Committee for Environmental Programs
- 1992-96 **Association of Ground Water Scientists and Engineers**, National Ground Water Association Board of Directors
- 1992-95 **Editor**—*GROUND WATER*, Journal of the Association of Ground Water Scientists and Engineers, National Ground Water Association.
- 1984-94 **National Research Council**—Member, Committee on the Waste Isolation Pilot Plant (WIPP)
- 1990-93 **National Science Foundation**—Member, Advisory Committee for Earth Science
- 1990-92 **National Research Council**—Member, HYTEC Panel for the Yucca Mountain Nuclear Repository (Chair, Modeling Subcommittee)
- 1970-92 **numerous other Advisory Committees, including NAS/NRC, US-DOE, UNESCO, etc.**

SCIENTIFIC SOCIETIES

American Association of Petroleum Geologists
Geological Society of America
American Geophysical Union
Association of Ground Water Scientists and Engineers
Russian Academy of Natural Sciences
U.S. National Academy of Engineering

MEDALS and AWARDS

- 1969 **HORTON AWARD**—American Geophysical Union (G. F. Pinder & J.D. Bredehoeft)
- 1974 **INTERDISCIPLINARY AWARD**—U.S. Committee for Rock Mechanics (C.B. Raleigh, J. Healy, & J.D. Bredehoeft)
- 1975 **O.E. MEINZER AWARD**—Geological Society of America (J.D. Bredehoeft & G.F. Pinder)
- 1978 **MERITORIOUS SERVICE AWARD**—Department of Interior
- 1981 **DISTINGUISHED SERVICE AWARD**—Department of Interior
- 1984 **BOGESS AWARD**—American Water Resources Association (E.G. Reichard & J.D. Bredehoeft)
- 1991 **FOREIGN ASSOCIATE, RUSSIAN ACADEMY OF NATURAL SCIENCES**
- 1991 **M. KING HUBBERT AWARD**—National Ground Water Association
- 1994 **MEMBER, U.S. NATIONAL ACADEMY OF ENGINEERING**
- 1997 **HORTON MEDAL**—American Geophysical Union
- 1997 **PENROSE MEDAL**—Geological Society of America
- 1997 **LIFE MEMBER**—National Ground Water Association
- 1999 **LANGBEIN DISTINGUISHED LECTURER**—American Geophysical Union
- 2001 **HALBOUTY DISTINGUISHED LECTURE in RESOURCES**—Geological Society of America
- 2003 **DISTINGUISHED SERVICE AWARD**—Hydrogeology Division, Geological Society of America
- 2004 **LIFETIME ACHIEVEMENT AWARD**—Ground Water Resources Association

The HYDRODYNAMICS Group

studies in mass and energy transport in the earth

3

SIGNIFICANT PROJECTS--USGS:

Flow & Contaminant Transport Models
Economic Studies—Conjunction Ground and Surface Water Use
Earthquake Control—Rangeley, Colorado
Oil Shale—Hydrogeology of the Piceance Basin, Colorado
Water Wells as Strain Meters
Nuclear Waste—WIPP and Yucca Mountain
Hydrodynamics of Deep Sedimentary Basins

MAJOR CONSULTING PROJECTS—1995-06:

CONTAMINANT STUDIES

Clean-up, Guadalupe Oil Field, California (California WQCB)
TCE/PCE Contaminant Spill, California (U.S. Department of Justice)
TCE/PCE Contaminant Spill, Phoenix, Arizona (U.S. EPA)
MTBE Contamination, California (major Oil Company)
Hydrogeologic Impacts of Mining, Summitville, Colorado (Mining Co. PRP)

NUCLEAR WASTE

Yucca Mountain nuclear Repository—Oversight for Inyo County, California
Savannah River Site—Remediation of the F and H Area Disposal Ponds
Waste Isolation Pilot Plant (WIPP) (New Mexico Attorney General)
Exploratory Drilling Deep Carbonate Aquifer—Amargosa Desert, CA (Inyo County)
Contamination at Los Alamos National Laboratory (New Mexico Attorney General)
Decommission of West Valley Processing Facility, New York (New York ERDA)

WATER SUPPLY

San Francisco Zoo (Zoo)
Platte River Groundwater—Wyoming vs Nebraska (Wyoming Attorney General)
Santa Ynez River Basin—Santa Barbara County, California
Fall River Springs: Impact of Geothermal Development—California (land owners)
Conjunctive use, San Pedro Riparian Area, Arizona/Mexico (CEC)
Groundwater in Mexico (World Bank)
South Denver Metropolitan Area—Douglas County, Colorado (local Water Districts)
Cadiz groundwater Storage and Supply—California (Environmental Coalition)
SE-Nevada Carbonate Aquifer (Nevada Power Co.)
Walker Lake, Nevada (Environmental Coalition)
Conjunctive use, Gallatin Valley, Montana (Trout Unlimited, Montana Fish and Game)
Pine Cove, California (Environmental Coalition and Pine Cove Water District)

OTHER

Conrad Landslide, British Columbia (CN Rail)
Powder River Basin; Coal-Bed Methane FEIS, WY & MT (Environmental Coalition)
Feasibility of Gas Storage—Georgia (Country)
