Subject: Having to pay a second fee for the same protest?

Dear Mr. King I will be greatly effected by SNWA exporting water from Spring Valley. I cannot fight them for the springs that my sheep use. Yet these springs will the first to be effected by SNWA's action. I filed the protest on all their applications just to be sure I was covered. It was a great expense for my family. Now I am told that I must file my protests over. And pay another fee? They are exactly the same. The nation is of laws not men. Yet the law should protect the least among us equally. I cannot compete against the power and money that SNWA can muster. I hoped that the laws of Nevada would treat me fairly. I only wish to have a fair hearing on this matter. The additional fees to file the same protest will be punitive. Please allow my concerns a fair and equal hearing. I have "skin in the game". I am doing the protest to protect my property, my family, and my way of life. It appears to be very unfair to pay additional fees for the exact same protest. Thank you for listening. Henry C.
