## C

Nevada Administrative Code **Currentness**

Chapter 704. Regulation of Public Utilities Generally

▣ Resource Planning by Certain Electric Utilities

→ **NAC 704.9359 Determination of environmental costs to State. (NRS 703.025, 704.210, 704.741)**

The environmental costs to the State associated with operating and maintaining a supply plan or demand side plan must be quantified for air emissions, water and land use. Environmental costs are those costs, wherever they may occur, that result from harm or risks of harm to the environment after the application of all mitigation measures required by existing environmental regulation or otherwise included in the resource plan.
