State Engineer Jason King  
NV

Dear State Engineer Jason King State Engineer King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

Please do not take our water. Vegas is unsustainable, cut water features and control population before you steal our water.

Thank You

Gerald Eaton  
3301 Kings Row  
Reno, Nv 89503

Sincerely,

Gerald Eaton
