State Engineer Jason King, State Engineer
NV

Dear State Engineer Jason King State Engineer King, State Engineer,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

please do not do this

Sincerely,

judith scanlan
