Mr. King

Southern Nevada Water Authority's proposal will risk the livelihood of both those in Eastern Nevada by draining their resources and those in Southern Nevada who will be forced to pay for expensive project. The current and future housing needs in Las Vegas do not warrant this. Water meters and water conservation MUST be required of Clark County before this boondoggle is even considered!

Please deny SNWA's request for water rights in the Great Basin.

Nevadans cannot afford this project.
