Adam Sullivan, P.E., *State Engineer*

### **Small Business Impact Survey: Changes to NAC 533 related to Extensions of Time**

The Nevada Division of Water Resources (NDWR) is proposing changes to the Nevada Administrative Code (NAC) 533 regarding extensions of time. This survey aims to assess the impact of these changes on small businesses. Participation is voluntary, and the information gathered will help NDWR draft a small business impact statement, which will be available on the Division's website. Future public workshops will provide additional opportunities for comment.

#### **Survey Focus:**

- Assessing the impact of amended regulations on your business.
- If the changes impose significant economic burdens or restrict business operations, NDWR will:
  1. Consult with affected small businesses.
  2. Consider methods to reduce the impact.
  3. Prepare and share a small business impact statement.

#### **Proposed Regulation Changes:**

- Simplify and clarify definitions.
- Reduce submission requirements and use general requirements to allow flexibility.
- Ensure list of factors is sufficient for all manners of use.
- Revise regulation review timeline.
