Okay, hearing no further business at this time, we will now proceed with the oral exams. Is there a motion from the Board to close the meeting, pursuant to NRS 241.030, to conduct the oral exams?

You're really limited where you're at and learning how to do stuff you know. But you do need to you know see what you can look up and get stuff off the internet on how to mix mud, and also you need to learn about the cement products. The numbers.

Donald Miller: And I know them, I just need to go over this stuff.

Steve Hamrick: Go over that okay. So, we're going to recommend that you come back for a retest. Just for part three.

Manny Fernandez: Tobias?

I think that you did really good in some areas today, but you just need to spend more time, you know. I think that you will become a licensed driller. I just think that you need a little bit more help.

Manny Fernandez: Paul?

Paul Forbes: I'm going to recommend a retest also. I think you did a good job and you're on the right track, just a little more digging in the book and make sure you're following the regulations to a "T".

Tobias Trujillo: But don't get discouraged. You did pretty good all-around today.

Manny Fernandez: The board recommends to the State Engineer, Donald Miller, for a retest for his Water Well License, part three. The time is 9:33 a.m.
